Retells the stories, revisits the settings and reveals the characters involved in what have been some of the most thrilling and iconic motor races between 1935 and 2011. Featuring such greats as Tazio Nuvolari, Stirling Moss, Juan Fangio, and James Hunt, to name just a few, the book also includes fan photos and memorabilia collected during the era, and personal experiences of many of these great events.

100 heroes from almost 100 years of motor sport are covered in this book. Revealing the determination, heroism, raw courage, skill at the wheel – and just plain humanity – that has elevated men and women into the special, rarified atmosphere of heroism. Here is an introduction to the whole cult of the dune buggy, from its earliest beginnings as a crude off-road vehicle in the 1920s, to the explosion of glassfibre-bodied and VW-based fun cars that became the cult transport of teenagers everywhere in the 1960s and 1970s. With histories, production details, dates and identification tips for over 70 US and UK buggies, this book will help identify the many marques that have been produced over the years. Using period photographs and archive material, combined with amazing contemporary photography, the book is a visual feast, and also contains sections on buggies and celebrities for those that want to spot pop stars, TV hosts and racing drivers posing with period vehicles.

A limited edition of 1500 copies. This book chronicles the development and racing career of a car regarded as the ultimate example of the purebred sports car of the 20th century and the epitome of functional beauty and extraordinary performance: the 1952 Mercedes-Benz 300 SL. Taking second place at its 1952 Mille Miglia debut, it went on to win every one of its races that season. Dramatic photos, vivid descriptions, and dramatic recollections from the drivers ensures this book will be a joy to read and enjoy for years to come.

A biography of motor racing mechanic Tony Robinson, who worked with some of the great names of the sport in the 1950s and '60s.

It's hard to believe, but the W129-series Mercedes-Benz SL was launched over 20 years ago. However, its timeless styling has kept it fresh and attractive in the eyes of a new generation of enthusiasts, as well as those returning to the car having owned one when they were still in the dealerships. A combination of superb original design and peerless engineering and build quality adds to the desirability of this series of classic German machines, and has ensured that many of these cars can still be seen in regular use today. Covering the SL's ever-changing specification, and its presence in many of the world's major markets is a huge task, but it's all presented here in definitive detail, along with stunning contemporary photography, in a volume that will readily grace any reference library shelf or connoisseur's coffee table. Two earlier books, also published by Veloce, and covering the W113 cars and the 107-series SL and SLC, act as perfect companions to this title, which takes the SL story up to 1989.

The concise history of the Bugatti Type 57, 57S, 64 & 101. The magnificent Type 57 was the final flowering of the genius of Ettore and Jean

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to

many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

The 356 was the first Porsche model. The coupes and spyders were a great success throughout the world and continued to be so throughout the model's life. The story of the Porsche 356, and the racing and rallying cars that sprang from it, is detailed in this text. Dimensions: 250 x 207

Describes basic maintenance procedures and shows how to make repairs
