*Lost Trails of the Cimarron* is Harry Chrisman's folk history of nineteenth-century Cimarron country - southwestern Kansas, southeastern Colorado, and the neutral strip of Oklahoma and the Texas Panhandle. Buffalo hunters entered the area in violation of the Medicine Lodge Treaty, followed by cowboys and settlers who formed a vast economy based on grass and beef, the beginnings of prominent cattle ranches such as the Westmoreland-Hitch Outfit. Chrisman details the history of the outlaws and ruffians of "No Man's Land" and trail drives to Dodge City and beyond. Numerous illustrations accompany the anecdotes and stories of various frontier personalities. A new foreword by Jim Hoy also appears in this edition.

A small tribe of Indians, the Quapaws, survived civilization. A group of criminals, the likes of Bonnie and Clyde, found refuge. The wealth that poured from the ground created some of the richest Indians in the World. And Mickey Mantle got his start as a lead and zinc miner. All these events, and more, took place in or around a small community known as Picher, Oklahoma. And from the early part of the twentieth century, that community was nearly hidden under millions of tons of chat waste piles. Join author Larry Johnson on an exciting adventure starting with the origin of the Native American tribes, leading up to the horrific environmental hazards and final destruction of this town in the May 2008 tornadoes. *Tar Creek* effectively spins the true tale of the Quapaw Indians, the world's greatest discovery of lead and zinc, and the making of the oldest and largest environmental Superfund site in America. Organically encompassed in this tale are the first footsteps of the American Indian in the Western Hemisphere, the founding of the United States, and the transition of Indian Territories into statehood. *Tar Creek* is an hourglass with the discovery of lead and zinc at

Picher as the skinny neck through which all of the interconnected acts and events preceding the discovery are slowly moving, resulting in the repercussions ninety years later. You'll be engaged and awed as you learn the real story on the journey to Tar Creek.

George Bent, the son of William Bent, one of the founders of Bent's Fort on the Arkansas near present La Junta, Colorado, and Owl Woman, a Cheyenne, began exchanging letters in 1905 with George E. Hyde of Omaha concerning life at the fort, his experiences with his Cheyenne kinsmen, and the events which finally led to the military suppression of the Indians on the southern Great Plains. This correspondence, which continued to the eve of Bent's death in 1918, is the source of the narrative here published, the narrator being Bent himself. Almost ninety years have elapsed since the day in 1930 when Mr. Hyde found it impossible to market the finished manuscript of the Bent life down to 1866. (The Depression had set in some months before.) He accordingly sold that portion of the manuscript to the Denver Public Library, retaining his working copy, which carries down to 1875. The account therefore embraces the most stirring period, not only of Bent's own life, but of life on the Plains and into the Rockies. It has never before been published. It is not often that an eyewitness of great events in the West tells his own story. But Bent's narrative, aside from the extent of its chronology (1826 to 1875), has very special significance as an inside view of Cheyenne life and action after the Sand Creek Massacre of 1864, which cost so many of the lives of Bent's friends and relatives. It is hardly probable that we shall achieve a more authentic view of what happened, as the Cheyennes, Arapahos, and Sioux saw it.
