"From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinkmanship - and transformed his understanding of mercy and justice forever."--Back cover.

The United States has more people locked up in jails, prisons, and detention centers than any other country in the history of the world. Exploring the history and foundations of mass incarceration, Dominique Gilliard examines Christianity's role in its evolution and expansion, assessing justice in light of Scripture, and showing how Christians can pursue justice that restores and reconciles. The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. Holding up a mirror to mainstream philosophy, this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract, to the "separate but equal" system of segregation in the twentieth-century United States. According to Mills, the contract has provided the theoretical architecture justifying an entire history of European atrocity against non-whites, from David Hume's and Immanuel Kant's claims that blacks had inferior cognitive power, to the Holocaust, to the kind of imperialism in Asia that was demonstrated by the Vietnam War. Mills suggests that the ghettoization of philosophical work on race is no accident. This work challenges the assumption that mainstream theory is itself raceless. Just as feminist theory has revealed orthodox political philosophy's invisible white male bias, Mills's explication of the racial contract exposes its racial underpinnings.

The controversial ex-mayor of New York speaks out on his years in office, the people, and the policies of "the Big Apple".

Chris Anderson is the curator of phenomenally successful TED talks - over one billion views and counting. He is passionate about the importance of public speaking, something he describes as a crucial life skill and which we should be teaching in school, and of the amazing power of direct human-to-human communication, recorded on video, in the internet age. It is now possible to share ideas with millions around the world (as evidenced by the success of TED itself, whose most popular talk has been viewed 31 million times). In his first book, Talk This Way, he shares his passion for public speaking and offers a master-class in how to do it - not just how to give a great TED talk, but how to stand up and speak persuasively in front of any size of audience, whether that is a school classroom, making a video blog, in a business meeting or at a conference. The book brings together his experience of over two decades as the curator of TED, in which time he has listened to over one thousand stage talks, with advice from 30 of his all-time favourite TED speakers.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

bought the original copy, make sure to purchase it before buying this unofficial summary from aBookaDay. This review of *Just Mercy: A Story of Justice and Redemption*, by Bryan Stevenson, provides a chapter by chapter detailed summary followed by an analysis and critique of the strengths and weaknesses of the book. The main theme explored in the book is the injustice of our criminal justice system. The author uses the case of Walter McMillian's wrongful conviction of murder and imprisonment as an overarching example of how the U.S. justice system does not prosecute fairly. The author focuses on how race, socioeconomic status, and even age have an effect on how certain criminals are convicted. Stevenson uses his personal experience as a lawyer for the Equal Justice Initiative and more than 25 years fighting for the rights of people who could not afford legal counsel as a basis for this novel. Through his own experiences, the author makes the case that it is often the people on the fringe of society who need proper justice and mercy, and yet, they are the ones who are least likely to receive it. By sharing his own case work, the author demonstrates how unjust death penalty convictions have been over the past fifty years and how hard it is to truly make change in the system. The central thesis of the work is that we are more than the worst things we have done. Yet, we live in a country that will, on the basis of one poor choice or decision, condemn a person to life in prison, or worse, death. Even further, law enforcement often targets those who have neither the money nor education to fight back, and this has had a direct correlation to the rise in mass incarceration over the past century. The author's purpose is to shine a light on this and bring about the kind of change that uses mercy as its own form of justice. Bryan Stevenson is a lawyer, social justice activist, and the founder of the Equal Justice Initiative. He attended Eastern University and graduated in 1981. After that he attended Harvard Law School where he found his career calling by working for the Southern Center for Human Rights. He has since traveled the country, working for EJI, and speaking about the politics and social injustice of the prison system and death penalty. "The ... story of a fourteen-year-old sentenced to life in prison, of the extraordinary relationship that developed between him and the woman he shot, and of his release after twenty-six years of imprisonment through the efforts of ... legal activist Bryan Stevenson"--

NEW YORK TIMES BESTSELLER • "This is one of those books that will go down as the seminal work—the determinative work—in this field. . . . Terrifying."—Rachel Maddow The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming mismanagement of the Obama and Trump years, right up to the insurrection at the Capitol on January 6—by the Pulitzer Prize winner and #1 New York Times bestselling co-author of *A Very Stable Genius* and *I Alone Can Fix It* Carol Leonnig has been reporting on the Secret Service for *The Washington Post* for most of the last decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today—from a toxic work culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency's once-hallowed image before fixing its flaws. But the Secret Service wasn't always so troubled. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But this reputation for courage and excellence would not last forever. By Barack Obama's presidency, the once-proud Secret Service was running on fumes and beset by mistakes and alarming lapses in judgment: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump's arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a hobbled agency that's in desperate need of reform. "I will be forever grateful to them for risking their careers," she writes, "not because they wanted to share tantalizing gossip about presidents and their families, but because they know that the Service is broken and needs fixing. By telling their story, they hope to revive the Service they love."

An energetic new voice in American politics, United States Senator Cory Booker sounds a stirring call to reorient our civic discourse around the principles of empathy and solidarity. Telling candid, inspiring stories from his life and career, and imparting lessons learned from people who motivated him to serve, he speaks of rising above discord, tending to our shared resources, and embracing our common destiny.--Summary from hardcover edition.

A no-holds-barred, red-hot discussion of race in America today from some of the leading names in the field, including the bestselling author of *Just Mercy* This blisteringly candid discussion of the American dilemma in the age of Trump brings together the head of the NAACP Legal Defense Fund, the former attorney general of the United States, a bestselling author and death penalty lawyer, and a star professor for an honest conversation the country desperately needs to hear. Drawing on their collective decades of work on civil rights issues as well as personal histories of rising from poverty and oppression, these leading lights of the legal profession and the fight for racial justice talk about the importance of reclaiming the racial narrative and keeping our eyes on the horizon as we work for justice in an unjust time. Covering topics as varied as "the commonality of pain," "when lawyers are heroes," and the concept of an "equality dividend" that is due to people of color for helping America brand itself internationally as a country of diversity and acceptance, Ifill, Lynch, Stevenson, and Thompson also explore topics such as "when did 'public' become a dirty word" (hint, it has something to do with serving people of color), "you know what Jeff Sessions is going to say," and "what it means to be a civil rights lawyer in the age of Trump." Building on Stevenson's hugely successful *Just Mercy*, Lynch's national platform at the Justice Department, Ifill's role as one of the leading defenders of civil rights in the country, and the occasion of Thompson's launch of a new center on race, inequality, and the law at the NYU School of Law, *A Perilous Path* will speak loudly and clearly to everyone concerned about America's perpetual fault line.

In 1917 a bomb exploded in a Milwaukee police station, killing nine officers and a civilian. Those responsible never were apprehended, but police, press, and public all assumed that the perpetrators were Italian. Days later, eleven alleged Italian anarchists went to trial on unrelated charges involving a fracas that had occurred two months before. Against the backdrop of World War I, and amidst a prevailing hatred and fear of radical immigrants, the Italians had an unfair trial. The specter of the larger, uncharged crime of the bombing haunted the proceedings and assured convictions of all eleven. Although Clarence Darrow led an appeal that gained freedom for most of the convicted, the celebrated lawyer's methods themselves were deeply suspect. The entire case left a dark, if hidden, stain on American justice. Largely overlooked for almost a century, the compelling story of

this case emerges vividly in this meticulously researched book by Dean A. Strang. In its focus on a moment when patriotism, nativism, and terror swept the nation, *Worse than the Devil* exposes broad concerns that persist even today as the United States continues to struggle with administering criminal justice to newcomers and outsiders.

Decriminalizing Domestic Violence asks the crucial, yet often overlooked, question of why and how the criminal legal system became the primary response to intimate partner violence in the United States. It introduces readers, both new and well versed in the subject, to the ways in which the criminal legal system harms rather than helps those who are subjected to abuse and violence in their homes and communities, and shares how it drives, rather than deters, intimate partner violence. The book examines how social, legal, and financial resources are diverted into a criminal legal apparatus that is often unable to deliver justice or safety to victims or to prevent intimate partner violence in the first place. Envisioned for both courses and research topics in domestic violence, family violence, gender and law, and sociology of law, the book challenges readers to understand intimate partner violence not solely, or even primarily, as a criminal law concern but as an economic, public health, community, and human rights problem. It also argues that only by viewing intimate partner violence through these lenses can we develop a balanced policy agenda for addressing it. At a moment when we are examining our national addiction to punishment, *Decriminalizing Domestic Violence* offers a thoughtful, pragmatic roadmap to real reform.

The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

In personal stories from twenty years of activism and reporting, an award-winning journalist calls on readers to imagine a world without borders. "Todd Miller cuts through the facile media myths and escapes the paralyzing constraints of a political 'debate' that functions mainly to obscure the unconscionable inequalities that borders everywhere secure. In its soulfulness, its profound moral imagination, and its vision of radical solidarity, Todd Miller's work is as indispensable as the love that so palpably guides it."—Ben Ehrenreich, author of *Desert Notebooks: A Road Map for the End of Time* "The stories of the humble people of the earth Miller documents ask us to also tear down the walls in our hearts and in our heads. What proliferates in the absence of these walls and in spite of them, Miller writes, is the natural state of things centered on kindness and compassion."—Nick Estes, author of *Our History Is the Future: Standing Rock Versus the Dakota Access Pipeline, and the Long Tradition of Indigenous Resistance* By the time Todd Miller spots him, Juan Carlos has been wandering alone in a remote border region for days. Parched, hungry and disoriented, he approaches and asks for a ride. Miller's instinct is to oblige, but he hesitates: Furthering an unauthorized person's entrance into the U.S. is a federal crime. Todd Miller has been reporting from international border zones for over twenty-five years. In *Build Bridges, Not Walls*, he invites readers to join him on a journey that begins with the most basic of questions: What happens to our collective humanity when the impulse to help one another is criminalized? A series of encounters—with climate refugees, members of indigenous communities, border authorities, modern-day abolitionists, scholars, visionaries, and the shape-shifting imagination of his four-year-old son—provoke a series of reflections on the ways in which nation-states create the problems that drive immigration, and how the abolition of borders could make the world a more sustainable, habitable place for all. Is it possible to imagine a borderless world? How could it emerge, and how might it be better equipped to solve the global emergencies that threaten our collective survival? *Build Bridges, Not Walls* is an inspiring, impassioned call to envision—and work toward—a bold new reality. Praise for *Build Bridges, Not Walls*: "Todd Miller's deeply reported, empathetic writing on the American border is some of the most essential journalism being done today."—Adam Conover, creator and host of *Adam Ruins Everything* and host of *Factually!* "All of Todd Miller's work is essential reading, but *Build Bridges, Not Walls* is his most compelling, insightful work yet."—Dean Spade, author of *Mutual Aid: Building Solidarity During This Crisis (And the Next)* "Miller calls us to see how borders subject millions of people to violence, dehumanization, and early death. More importantly, he highlights the urgent necessity to abolish not only borders, but the nation-state itself."—A. Naomi Paik, author of *Bans, Walls Raids, Sanctuary: Understanding U.S. Immigration for the Twenty-First Century* and *Rightlessness: Testimony and Redress in U.S. Prison Camps Since World War II* "Miller's latest book is a personal, wide-ranging, and impassioned call for abolishing borders."—John Washington, author of *The Dispossessed: A Story of Asylum and the US-Mexican Border and Beyond*

Don Ho and his tiny bubbles provide the background music for Hawaii, Edith Piaf for Paris. The reggae of Bob Marley evokes Jamaica. The soundtrack for Alabama is without question provided by our troubled troubadour Hank Williams. The 2016 biography *Hank* by Mark Ribowsky paints a dark picture of the musician's short, alcoholic, drug-filled life: a life of loneliness and pain. He goes so far as to call Hank's life story "noir-ish"... In Alabama *Noir* we encounter "troubles and foibles" galore, darkness in many forms. The stories range from the deadly grim to some that are actually mildly humorous. We see desperate behavior on the banks of the Tennessee River, in the neighborhoods of Birmingham, in the affluent suburbs of Mobile, in a cemetery in Montgomery, and even on the deceptively pleasant beaches of the Gulf of Mexico. Fans of noir should all find something to enjoy.

In recent years, America's criminal justice system has become the subject of an increasingly urgent debate. Critics have assailed the rise of mass incarceration, emphasizing its disproportionate impact on people of color. As James Forman, Jr., points out, however, the war on crime that began in the 1970s was supported by many African American leaders in the nation's urban centers. In *Locking Up Our Own*, he seeks to understand why. Forman shows us that the first substantial cohort of black mayors, judges, and police chiefs took office amid a surge in crime and drug addiction. Many prominent black officials, including Washington, D.C. mayor Marion Barry and federal prosecutor Eric Holder, feared that the gains of the civil rights movement were being undermined by lawlessness—and thus embraced tough-on-crime measures, including longer sentences and aggressive police tactics. In the face of skyrocketing murder rates and the proliferation of open-air drug markets, they believed they had no choice. But the policies they adopted would have devastating consequences for residents of poor black neighborhoods. A former D.C. public defender, Forman tells riveting stories of politicians, community activists, police officers, defendants, and crime victims. He writes with compassion about individuals trapped in terrible dilemmas—from the men and women he represented in court to

officials struggling to respond to a public safety emergency. *Locking Up Our Own* enriches our understanding of why our society became so punitive and offers important lessons to anyone concerned about the future of race and the criminal justice system in this country.

"Profoundly necessary." —Michelle Alexander, New York Times columnist and author of *The New Jim Crow* In the eloquent tradition of Bryan Stevenson's *Just Mercy*, an award-winning leader in the movement to end mass incarceration takes on the vexing problem of violent crime Although over half the people incarcerated in America today have committed violent offenses, the focus of reformers has been almost entirely on nonviolent and drug offenses. Danielle Sered's brilliant and groundbreaking *Until We Reckon* steers directly and unapologetically into the question of violence, offering approaches that will help end mass incarceration and increase safety. Widely recognized as one of the leading proponents of a restorative approach to violent crime, Sered asks us to reconsider the purposes of incarceration and argues persuasively that the needs of survivors of violent crime are better met by asking people who commit violence to accept responsibility for their actions and make amends in ways that are meaningful to those they have hurt—none of which happens in the context of a criminal trial or a prison sentence. Sered launched and directs *Common Justice*, one of the few organizations offering alternatives to incarceration for people who commit serious violent crime and which has produced immensely promising results. Critically, Sered argues that the reckoning owed is not only on the part of those who have committed violence, but also by our nation's overreliance on incarceration to produce safety—at great cost to communities, survivors, racial equity, and the very fabric of our democracy.
