The first in a new series from the "wicked-hot"* author of *Hard Time* and *Give It All* explores the fantasies of a daring married couple—and those of a stranger invited to play along in their scandalous little games... When he's working, Mike Heyer is all business—every inch the alpha male, with the hard, capable body to back up his persona. But at home he can be a different man entirely, harboring appetites only his wife gets to glimpse... When Samira first learned of her husband's fantasies, she was reluctant, even alarmed. But after witnessing the way they set him on fire, she yielded, and happily indulged. As their games have intensified, so has the rush. And now so has the risk—they're poised to take Mike's indecent desires to the next level, by opening their bed to a sexy, brazen stranger. A man seeming custom-made to grant every last one of Mike and Samira's sinful wishes. Welcoming someone new into their lives was always a dangerous proposition, but the couple imagined if anything was at stake, it was their privacy...not their hearts. *New York Times Bestselling Author Jaci Burton

The content focuses on subjects most commonly tested on the USMLE Step 3. Quick Hits, buzzwords, mnemonics, acronyms, and lists are used throughout the text. A companion Website will offer the fully searchable text and color photographs.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Regardless, he's convinced it'll all be worth it if clear skin is on the horizon! Meanwhile, school isn't going exactly as planned. All of Jay's friends are in different classes; he has no one to sit with at lunch; his best friend, Brace, is avoiding him; and—to top it off—Jay doesn't understand why he doesn't share the same feelings two of his fellow classmates, a boy named Mark and a girl named Amy, have for him. Money can buy anything. And anyone. As the head of the Constantine family, I'm used to people bowing to my will. Cruel, rigid, unyielding—I'm all those things. When I discover the one woman who doesn't wither under my gaze, but instead smiles right back at me, I'm intrigued. Ash Elliott needs cash, and I make her trade in crudeness and degradation for it. I crave her tears, her moans. I pay for each one. And every time, she comes back for more. When she challenges me with an offer of her own, I have to decide if I'm willing to give her far more than cold hard cash. But love can have deadly consequences when it comes from a Constantine. At the stroke of midnight, that choice may be lost for both of us.

The viciously attractive Mark, with the unfaltering smile, has a day of endurance planned for Jenny that the devil himself would find challenging. His artful temperature play has her screaming, his anal dilators have her howling and a ride in the sybian's saddle leaves her virtually unconscious, but the day is far from over. A group of ladies, with wandering fingers, are given the task of transforming Jenny into a sweet, submissive pony girl who will be left looking 'hot to trot' in no time at all. After an exhausting day of training, Jenny has only escape or rescue on her mind. Alas, escape is rather difficult when you're naked, dressed in thigh high pony boots and have your hands immobilised in leather mittens which are clipped behind your back. Besides, escape isn't all that important - not when you're desperate for your next orgasm, it isn't.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world' Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.
