This volume begins by locating critical inquiry within the epistemological and methodological history of second language study. Subsequent chapters portray researcher-participant exploration of identity and agency while challenging inequitable policies and practices. Research on internationalization, Englishization, and/or transborder migration address language policies and knowledge production at universities in Hong Kong, Standard English and Singlish controversies in Singapore, media portrayals of the English as an Official Language movement in South Korea, transnational advocacy in Japan, and Nicaraguan/Costa Rican South to South migration. Transnational locations of identity and agency are fore-fronted in narrative descriptions of Korean heritage language learners, a discursive journey from East Timor to Hawaii, and a reclaimed life history by a Chinese peasant woman. Labor union and GLBT legal work illustrate discourses that can hinder or facilitate agency and change. Hawaiian educators advocate for indigenous self-determination through revealing the political and social meanings of research. California educators describe struggles at the front-lines of resistance to policies and practices harmful to marginalized children. A Participatory Action Research (PAR) project portrays how Latina youth in the U.S. "resist wounding inscriptions" of the intersecting emotional and physical violence of homes, communities, and antiimmigrant policies and attitudes. Promoting agency through drawing on diversity resources is modeled in a bilingual undergraduate PAR project. The volume as a whole provides a model for critical research that explores the multifaceted and evolving nature of language identities while placing those traditionally known as participants at the center of agency and advocacy.

This is a review guide for the Early Childhood GACE exam. This quick review contains around 200 pages of information and gives the test taker a basic over view of the possible information for the exam, leaving out the fluff and useless information. There are section review questions at the end of each subsection. This manual briefly covers all of the frameworks laid out by the GACE Company. It prepares you for all sections: Reading, Language Arts, English, Social Studies, Math, Science, Physical Education, and Health. Also included is test taking advice from someone who has actually taken and passed four GACE exams. After speaking with several Early Childhood majors I have concluded that, practice for the math section is needed most. This book includes over 200+ math practice questions and solutions. This is essential because test takers are not permitted to use calculators. Note: There are no sample questions or 'practice exams' for the exam within this book. Why? After reading many peer reviewed scholarly articles, test takers who complete practice tests tend to focus on that information rather than the 'big ideas.'
