Since the beginnings of the oil industry, production activity has been governed by the 'law of capture,' dictating that one owns the oil recovered from one's property even if it has migrated from under neighboring land. This 'finders keepers' principle has been excoriated by foreign critics as a 'law of the jungle' and identified by American commentators as the root cause of the enormous waste of oil and gas resulting from U.S. production methods in the first half of the 20th century. Yet while in almost every other country the law of capture is today of marginal significance, it continues in.

Finders Keepers is a gathering of Seamus Heaney's prose of three decades. Whether autobiographical, topical or specifically literary, these essays and

lectures circle the central preoccupying questions: 'How should a poet properly live and write? What is his relationship to be to his own voice, his own place, his literary heritage and the contemporary world?' As well as being a selection from the poet's three previous collections of prose (Preoccupations, The Government of the Tongue and The Redress of Poetry), the present volume includes material from The Place of Writing, a series of lectures delivered at Emory University in 1988. Also included are a rich variety of pieces not previously collected in volume form, ranging from short newspaper articles to more extended lectures and contributions to books, including 'Place and Displacement' (1984), only available previously as a pamphlet, and 'Burns's Art Speech', written for the bicentennial of Robert Burns's death. In its soundings of a wide range of poets - Irish and British, American and East European, predecessors and contemporaries - Finders Keepers is, as its title indicates, 'an announcement of both excitement and possession'.

The “unexpectedly moving” story of dumb luck and the American Dream set in South Philly from the # 1 New York Times–bestselling author (Entertainment Weekly). What would you do if you found a million dollars? When Joey Coyle did,

he was a twenty-eight-year-old drug-dependent, unemployed longshoreman living with his ailing mother in a tight-knit Philadelphia neighborhood. While cruising the streets just blocks from his home, fate took a turn worthy of a Hollywood caper when he found \$1.2 million in unmarked bills—casino money that had fallen off an armored truck. It was virtually untraceable. Coyle? Not so much. Over the next seven days, fueled by euphoria, methamphetamine, and paranoia, Coyle shared his windfall with everyone from his eight-year-old niece to total strangers to a local mob boss who offered to “clean” it. All the while, Det. Pat Laurenzi and members of the FBI were working around the clock to find it. No one was prepared for how Coyle’s dream-come-true would come tumbling down, or what would happen when it did. From “a master of narrative journalism” comes the incredible true-life thriller of an ordinary man with an extraordinary dilemma, and the complicity, concern, and betrayal of friends, family, and neighbors that would prove his undoing (The New York Times Book Review). “A miniature serio-comedy about life in the city.” —The Washington Post “Masterfully reported and artfully paced.” —Entertainment Weekly “A taut, fast-paced tale.” —The Baltimore Sun

A spine-tingling, edge-of-your-seat thriller about an alarming killing spree in southwest England from the CWA Gold Dagger Award-winning author. The eight-year-old boy had vanished from the car and—as if by slick, sick magic—had been replaced by a note on the steering wheel: “You don’t love him.” At the height of summer a dark shadow falls across Exmoor, as children begin to disappear, with each disappearance marked only by a terse, accusatory note. There are no explanations, no ransom demands, and no hope. Policeman Jonas Holly (a character returning from Bauer’s first two novels) faces a precarious journey into the warped mind of the kidnapper if he’s to stand any chance of catching him. But—still reeling from a personal tragedy—is Jonas really up to the task? There are some who would say that, when it comes to being the first line of defense, Jonas Holly may be the last man to trust. “Finders Keepers has an enjoyably creepy premise . . . Bauer’s villain, incidentally, is one of the oddest in detective fiction: what he does with his victims is utterly weird.” —The Guardian

describes what happened to her and how she fought back over a period of years to gain vindication. She was harassed, intimidated, jailed, and pilloried in the press for a crime that law enforcement knew she didn't commit. Through her own words, public records, correspondence, and newspaper articles, she portrays the personalities involved, including jail inmates (even the girlfriend of a serial killer), sheriffs deputies, county attorneys, bridge players, the mother of a world champion poker player, and a Montana State Senator. Finders Keepers gives insight into the personalities and mindset of authorities, who ignoring facts and common sense, persist in yielding their power. It's a case that's been followed by the legal community, even outside of Montana, because of its challenge to prosecutorial immunity.
