Drawn into an alien conflict when his ship is taken over and pitted against a dangerous ancient enemy, Colin MacIntyre takes on the task of defeating a group of immortals who have been secretly ruling the Earth.

Like many young women, Zo Flowers found herself in a dangerous relationship in her early twenties. Flowers ended the relationship after a short time, but the experience motivated her to be a catalyst for real change. She started conducting candid interviews with women about their experiences with domestic, dating, and sexual violence. From Ashes to Angels Dust: A Journey Through Womanhood is the book that emerged from those early interviews. From Ashes to Angels Dust: A Journey Through Womanhood is a unique collection of candid interviews, national resources, healing techniques, and Zos poetry. From Ashes to Angels Dust: A Journey Through Womanhood is the story of our mothers, sisters, and grandmothers. Dear Zo, the book was wonderful! I shared it with a couple of my colleagues. I could see myself in several of the scenarios painful to recall. How in the world could any of us get ourselves into such sad and often brutal situations? Reading your book was like being in the midst of a motion picture. You captured so much pain. Thanks so much for touching my life - however briefly. May God protect you as you start your new journey. Stay free and HAPPY! Pauline M. Two weeks ago at our Saturday School in Soweto, we read one of the stories in the book about Lois and Brian. It really struck a familiar cord with our 50 high school students. After reading the short story, it was a great vehicle to talk about abuse. Again, thank you. Your book is helping many young lives here in Soweto, South Africa. Stay blessed Jose B.

The mystical experience of a naive Angel, assigned to don the physical garment of a wealth college beauty and rescue her life force by completing her life pattern, without knowing she.

Lucifer was the brightest archangel of them all...until he fell in love. Before Earth there was Heaven, a place of immortality and subservience where angels existed to watch the world transform. Until one angel changed everything. Stripped of his essence, flesh replaced light, and the weight of Lucifer's new wings bore down on him like a burden...until he saw her. By his side since the dawn of time, Gabriel was Lucifer's closest companion in brilliant light. But seeing her in the flesh changed him. Lucifer can't look away. And not because she's perfection personified. Beyond Gabriel's cascading hair, porcelain skin, and blushed lips, her silvery eyes are the windows to her very soul and her eternal hope-even for an unworthy angel like him. And Lucifer is unworthy. His thoughts of her alone are a sin. The intimate acts he imagines committing with her could cost him more than his place amongst the archangels. But he can't stop how he feels when she looks at him. When Gabriel's gentle hand lays flat over Lucifer's chest, his heart beats faster...for her. Controlling the forbidden desires that rule Lucifer will be the hardest thing he's ever had to endure, but giving in to them could cost him the one being he can't live without.

For Sam had been summoned to earth by a dark vampire lord determined to create nephilim for his selfish use. And more Fallen were on their way. A Pulitzer Prize-winning, #1 New York Times bestseller, Angela's Ashes is Frank McCourt's masterful memoir of his childhood in Ireland. "When I look back on my childhood I wonder how I managed to survive at all. It was, of course, a miserable childhood: the happy childhood is hardly worth your while. Worse than the ordinary miserable childhood is the miserable Irish childhood, and worse yet is the miserable Irish Catholic childhood." So begins the luminous memoir of Frank McCourt, born in Depression-era Brooklyn to recent Irish immigrants and raised in the slums of Limerick, Ireland. Frank's mother, Angela, has no money to feed the children since Frank's father, Malachy, rarely works, and when he does he drinks his wages. Yet Malachy—exasperating, irresponsible, and beguiling—does nurture in Frank an appetite for the one thing he can provide: a story. Frank lives for his father's tales of Cuchulain, who saved Ireland, and of the Angel on the Seventh Step, who brings his mother babies. Perhaps it is story that accounts for Frank's survival. Wearing rags for diapers, begging a pig's head for Christmas dinner and gathering coal from the roadside to light a fire, Frank endures poverty, near-starvation and the casual cruelty of relatives and neighbors—yet lives to tell his tale with eloquence, exuberance, and remarkable forgiveness. Angela's Ashes, imbued on every page with Frank McCourt's astounding humor and compassion, is a glorious book that bears all the marks of a classic.

WE HAVE A JOB FOR YOU ... Just a routine day in lunar orbit. That's all Lieutenant Commander Colin MacIntyre, USN, expected. Only a simple training mission to test a new survey instrument intended for the first manned American-Russian interstellar flight. What he got was just a bit different. First, there was the fact that Earth didn't actually have a Moon. Then there was the three thousand-kilometer diameter alien starship pretending it was the Moon. And the millennia-old cybernetic intelligence that

shanghaied him to serve as its crew. Colin might have been forgiven for thinking that those were enough surprises for any one man, but there were a few other small problems. Like the deadly mutiny which had been raging longer than the human race had existed on Earth ... and still wasn't over. Or like the millions of other starships, crewed by genocidal aliens dedicated to the extermination of all possible competing life forms, which just happened to be headed straight towards Earth. Or like the interstellar empire whose aid offered humanity's only hope for survival... except for the minor fact that its last emperor and all of his subjects had died forty-five thousand years ago. Add in the occasional homicidal terrorist, religious fanatics convinced that the only good MacIntyre was a dead MacIntyre, a bio-weapon capable of killing every living thing on any planet, a super-bomb which could take out whole worlds, a starship drive which could destroy complete solar systems, and the need to organize the entire planet Earth^¾ and all of its warring, mutually murderous factions^¾ for a probably hopeless last-ditch defense, and Colin was convinced that things were just about as bad as they could possibly get. Until he found out whose job it had just become to fix all those problems, of course.... At the publisher's request, this title is sold without DRM (Digital Rights Management).

The author recounts his childhood in Depression-era Brooklyn as the child of Irish immigrants who decide to return to worse poverty in Ireland when his infant sister dies. Colin Hitchin's got problems. He's too short, he's got the highest IQ in his year and he's psychic. He sees things before they happen. He sees dead people too. No one believes him, his mum's too busy with her boyfriends, and his best friend Polly just humours him. It all started a couple of years back, before his dad died. That's when Colin got sent to Dr Juvanji who gave him drugs to calm him down ... Then his Uncle Jimmy turns up on the doorstep. Uncle Jimmy believes Colin, in fact he positively encourages him to pursue his special powers. Turns out Jimmy sees things, too. He sees into people's souls, he knows who they really are. Then Polly goes into a coma, and only Jimmy and Colin know why. Polly's soul - her 'lamia' as Jimmy calls it - has been attacked. And weird things are happening to kids at school, too. Something or someone is trying to suck the life out of them ... and with Jimmy's help, Colin is the one to stop it happening. On top of everything else, he's got to be a superhero, too.

A groundbreaking historical documentation of the secret history of pre-Pharonic Egypt and the race of angels that built it. •By the author of From the Ashes of Angels and Gateway to Atlantis (more than 30,000 copies sold in the United Kingdom). •Unlocks the secrets of how the Great Pyramids and the Sphinx were built. •Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records. •Proves the foundations of ancient astronomy 10,000 years ago.

Hidden deep below Egypt's Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid, one of the seven wonders of the world. Built using a technology unequaled even today, the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as Zep Tepi, the First Time. In his earlier companion book From the Ashes of Angels, renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods, who were the flesh and blood members of a race of fallen angels, founded ancient Egypt. Now, in Gods of Eden, he describes the remarkable achievements of their culture. Assembling clues from archaeology, mythology, and religion, Collins shows us how this great society mastered acoustic technology and employed the use of sound to raise heavy objects into the air and pierce holes through solid rock. It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide. With findings based on more than 20 years of research and scholarship, Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization.

An exploration of the megalithic complex at Göbekli Tepe, who built it, and how it gave rise to legends regarding the foundations of civilization • Details the layout, architecture, and exquisite carvings at Göbekli Tepe • Explores how it was built as a reaction to a global cataclysm • Explains that it was the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition who created it • Reveals the location of the remains of the Garden of Eden in the same region Built at the end of the last ice age, the mysterious stone temple complex of Göbekli Tepe in Turkey is one of the greatest challenges to 21st century archaeology. As much as 7,000 years older than the Great Pyramid and Stonehenge, its strange buildings and rings of T-shaped monoliths--built with stones weighing from 10 to 15 tons--show a level of sophistication and artistic achievement unmatched until the rise of the great civilizations of the ancient world, Sumer, Egypt, and Babylon. Chronicling his travels to Göbekli Tepe and surrounding sites, Andrew Collins details the layout, architecture, and exquisite relief carvings of ice age animals and human forms found at this 12,000-year-old megalithic

complex, now recognized as the oldest stone architecture in the world. He explores how it was built as a reaction to a global cataclysm--the Great Flood in the Bible--and explains how it served as a gateway and map to the sky-world, the place of first creation, reached via a bright star in the constellation of Cygnus. He reveals those behind its construction as the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition. Unveiling Göbekli Tepe's foundational role in the rise of civilization, Collins shows how it is connected to humanity's creation in the Garden of Eden and the secrets Adam passed to his son Seth, the founder of an angelic race called the Sethites. In his search for Adam's legendary Cave of Treasures, the author discovers the Garden of Eden and the remains of the Tree of Life--in the same sacred region where Göbekli Tepe is being uncovered today.

Provides convincing evidence that angels, demons, and fallen angels were flesh-and-blood members of a giant race predating humanity, spoken of in the Bible as the Nephilim. • Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan. • By the author of Gateway to Atlantis. Our mythology describes how beings of great beauty and intelligence, who served as messengers of gods, fell from grace through pride. These angels, also known as Watchers, are spoken of in the Bible and other religious texts as lusting after human women, who lay with them and gave birth to giant offspring called the Nephilim. These religious sources also record how these beings revealed forbidden arts and sciences to humanity--transgressions that led to their destruction in the Great Flood. Andrew Collins reveals that these angels, demons, and fallen angels were flesh-and-blood members of a race predating our own. He offers evidence that they lived in Egypt (prior to the ancient Egyptians), where they built the Sphinx and other megalithic monuments, before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age. Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below. Humanity regarded these angels--described as tall, white-haired beings with viperlike faces and burning eyes--as gods and their realm the paradise wherein grew the tree of knowledge. Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril.

Fallen Wanting to be a part of mankind, the angel fell losing his halo, the prize that held his earthbound soul. Now Cooper must retrieve it. But wherever the Fallen walk, a Sinistari demon intent with slaying one is not far behind. But his first encounter with her leaves him curiously hungering for more... Ashes Of Angels Cassandra Stevens had been warned of the Fallen angel who'd one day come to impregnate her with a nephilim, an evil offspring. But no one could have foreseen that Samandriel the raven-haired, silver-winged Fallen one would sweep her off her feet. Sam stirred her suppressed desires, yet for her own sake she dared not arouse his carnal ones Reveals the profound influence of the Denisovans and their hybrid descendants upon the flowering of human civilization around the world • Traces the migrations of the sophisticated Denisovans and their interbreeding with Neanderthals and early human populations more than 40,000 years ago • Shows how Denisovan hybrids became the elite of ancient societies, including the Adena mound-building culture • Explores the Denisovans' extraordinary advances, including precision-machined stone tools and jewelry, tailored clothing, and celestially-aligned architecture Ice-age cave artists, the builders at Göbekli Tepe, and the mound-builders of North America all share a common ancestry in the Solutreans, Neanderthal-human hybrids of immense sophistication, who dominated southwest Europe before reaching North America 20,000 years ago. Yet, even before the Solutreans, the American continent was home to a powerful population of enormous stature, giants remembered in Native American legend as the Thunder People. New research shows they were hybrid descendants of an extinct human group known as the Denisovans, whose existence has now been confirmed from fossil remains found in a cave in the Altai region of Siberia. Tracing the migrations of the Denisovans and their interbreeding with Neanderthals and early human populations in Asia, Europe, Australia, and the Americas, Andrew Collins and Greg Little explore how the new mental capabilities of the Denisovan-Neanderthal and Denisovan-human hybrids greatly accelerated the flowering of human civilization over 40,000 years ago. They show how the Denisovans displayed sophisticated advances, including precision-machined stone tools and jewelry, tailored clothing, celestially-aligned architecture, and horse domestication. Examining evidence from ancient America, the authors reveal how Denisovan hybrids became the elite of the Adena mound-building culture, explaining the giant skeletons found in Native American burial mounds. The authors also explore how the Denisovans' descendants were the creators of a cosmological death journey and viewed the Milky Way as the Path of Souls. Revealing the impact of the Denisovans upon every part of the world, the authors show that, without early man's hybridization with Denisovans, Neanderthals, and other yet-to-be-discovered hominid populations, the modern world as we know it would not exist. Adversity is often what introduces us to the stronger, more resilient versions of ourselves. When we are ready to learn, it teaches us about the presence and love of God. This book was created in the ashes. It is the tangible, physical manifestation of the author's determination to create and serve while facing hard times. From the Ashes will help you face your own challenges. You will be encouraged to also take advantage of opportunities trouble always brings along with it. This book reveals the true nature of God and provides key tools necessary to emerge victoriously from life's battles.
