It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano

awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. *Classic Keys* explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

David Rowell is a professional journalist and an impassioned amateur musician. He's spent decades behind a drum kit, pondering the musical relationship between equipment and emotion. In *Wherever the Sound Takes You*, he explores the essence of music's meaning with a vast spectrum of players, trying to understand their connection to their chosen instrument, what they've put themselves through for their music, and what they feel when they play. This wide-ranging and openhearted book blossoms outward from there. Rowell visits clubs, concert halls, street corners, and open mics, traveling from the Rock and Roll Hall of Fame in Cleveland to a death metal festival in Maryland, with stops along the way in the Swiss Alps and Appalachia. His keen reportorial eye treats us to in-depth portraits of musicians from platinum-selling legend Peter Frampton to a devout Christian who spends his days alone in a storage unit bashing away on one of the largest drum sets in the world. Rowell illuminates the feelings that both spur music's creation and emerge from its performance, as well as the physical instruments that enables their expression. With an uncommon sensitivity and grace, he charts the pleasure and pain of musicians consumed with what they do—as all of us listen in.
