Introduction to Managerial Accounting, 5/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

This book deals with the activities of the Anglo-Dutch multinational during the war. Given the various threats faced by Unilever during the Nazi period, Ben Wubs argues that it was not self evident that the company would survive the war. Based on research into company sources which were hitherto unavailable, he shows the effect of the war on Unilever. The International Management Accounting Conference 4 was held in August 2007 in Kuala Lumpur to discuss issues pertaining to the role of accounting in liberalized economy. From the conference, it was clear that liberalized economy does impact the direction, nature and practices of accounting. In response to these challenges, accounting must play a proactive and relevant role to sustain the competitiveness of companies in the business environment. Therefore it is the intention of the conference organizers to share the issues, problems and challenges in sustaining competitiveness in liberalized economy with a larger audience through the publication of this book. The book is organized in the following themes: ? Cost and Information Management ? Performance Measurement ? Strategic Alliance The articles included in this book were selected from the papers reviewed and presented at the International Management Accounting Conference 4. The articles were written based on research findings of studies conducted in several countries including Malaysia, New Zealand, Indonesia, UK, India, Saudi Arabia and Botswana. Therefore they are expected to have high academic value, each complete with literature review, methodology, data analysis and references. Even though that is the case, the papers have been carefully chosen and edited for mass readers. This book is suitable for researchers, academicians, graduate students, and practitioners with interest in business, economics and accounting:

Brewer's Introduction to Managerial Accounting has earned a reputation as the most accessible and readable book on the market. Its manageable chapters and clear presentation point students toward understanding just as the needle of a compass provides direction to travelers. However, the book's authors also understand that everyone's destinations are different. Some students will become accountants, while others are destined for careers in management, marketing, or finance. Not only does the Brewer text teach students managerial accounting concepts in a clear and concise way, but it also asks students to consider how the concepts they're learning will apply to the real world situations they will eventually confront in their careers. This combination of conceptual understanding and the ability to apply that knowledge directs students toward success, whatever their final destination happens to be.

Managerial Accounting for Managers, 4th edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution (no debits/credits). Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills—such as basic formulas and formatting—within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.

The chapters of this book are a selection of papers presented at a joint conference on Law, Ethics and Finance was held at the York University Schulich School of Business, 16–18 September, 2010. This book highlights with empirical data the strong interplay on ethics in organisational efficiency and entrepreneurial activity, and the role of legal settings and governance in facilitating ethical standards. It is hoped these papers encourage future scholars to continue to investigate the role of law and corporate governance in mitigating corruption and facilitating integrity in management, entrepreneurship and finance. Previously published in the Journal of Business Ethics, Volume 95 Supplement 2, 2010?

Strategic Recreation Management is a comprehensive and up-to-date introduction to the fundamental principles, managerial techniques and practices in the public administration of recreational services. It covers every key facet of public management as it concerns recreational service, including organizational, operational, planning, developmental, and managerial procedures, as well as examining all the contextual factors that influence the delivery of recreation, such as political pressures, economics, social considerations, physical resources, and citizens' perception of the field and its performance. Each chapter offers illustrative case studies from the real world of recreation management, with chapters sequenced to represent the typical day-to-day challenges and issues in recreation service. Authors Jay Shivers and Joseph Halper have many years' experience of working in the recreational sector, as educators and practitioners, and the result is a textbook that provides the perfect foundation for any degree-level course in recreation management, as well as being an indispensable reference for all professionals working in recreation service.

Although there have been numerous studies of the causes and consequences of the Great Financial Crisis of 2007–2010 in the US and abroad, many of these were undertaken only for a small number of countries and before the financial and economic effects were fully realized and before various governmental policy responses were decided upon and actually implemented. This book aims to fill these voids by providing a more thorough assessment now that the worst events and the regulatory reforms are sufficiently behind us and much more information about these developments is available. It reviews and analyzes the causes and consequences of and the regulatory responses to the Great Financial Crisis, particularly from a public policy viewpoint. In the process, it explores such intriguing questions as: What caused the crisis? How did the crisis differ across countries? What is the outlook for another crisis, and when? This is a must read for those who are trying to find answers to these questions. Contents: The Great Financial Crisis of 2007–2010: The Sinners and Their Sins (G G Kaufman) The Costs of the 2007–2009 Financial Crisis (H Rosenblum) The US Financial Crisis and the Great Recession: Counting the Costs (Gillian G H Garcia) US Housing Policy and the Financial Crisis (Peter J Wallison) Playing for Time: The Fed's Attempt to Manage the Crisis as a Liquidity Problem (R A Eisenbeis and R J Herring) Japan's Financial Regulatory Responses to the Global Financial Crisis (K Harada, T Hoshi, M Imai, S Koibuchi and A Yasuda) Regulatory Response to the Financial Crisis in Europe: Recent Developments (2010–2013) (S Carbó-Valverde, H A Benink, T Berglund and C Wihlborg) Regulatory Change in Australia and New Zealand Following the Global Financial Crisis (C A Brown, K T Davis and D G Mayes) The Dodd-Frank Act: Systemic Risk, Enhanced Prudential Regulation, and Orderly Liquidation (G G Kaufman and R W Nelson) The Trade Execution and Central Clearing Requirements of Dodd-Frank Title VII — Transparency, Risk Management, and Financial Stability (R S Steigerwald) A Primer on Dodd-Frank's Title VIII (C Baker) Macroliquidity: Selected Topics Related to Title XI of the Dodd-Frank Act of 2010 (W F Todd) The Dodd-Frank Act: Key Features, Implementation Progress, and, Financial System Impact (J R Barth, A (Penny) Prabha and C Wihlborg) Hair of the Dog That Bit Us: The Insufficiency of New and Improved Capital Requirements (E J Kane) Misdiagnosis: Incomplete Cures of Financial Regulatory Failures (J R Barth, G Caprio Jr and R Levine) Path-Dependent Monetary Policy in the Post-Financial Crisis Era of Dodd-Frank (H Rosenblum) Bank Crisis Resolution and the Insufficiency of Fiscal Backstops: The Case of Spain (S Carbó-Valverde and M J Nieto) Readership: Graduate students, academics, economists, finance professionals, monetary, banking authorities and financial regulatory bodies, and those who are interested to find out the impacts of the Great Financial Crisis and the adequacy of the reforms and policy responses in its aftermath. Key Features: Analyzes theoretically and empirically the Great Financial Crisis of 2007–2010 not only in the micro- and macro-perspectives, but also with case studies on different countries Presents a much more thorough assessment on the causes and consequences of and the regulatory responses to the Great Financial Crisis with the most up-to-date information Emphasizes in particular the Dodd–Frank Act: its implementation and its impacts on financial regulation, monetary policy and the future of global finance Keywords: Financial Economics; Banks; Depository Institutions; Micro Finance Institutions; Mortgages; Macroeconomics; Monetary Economics; Dodd-Frank; Financial Crisis; Financial Regulations; Regulatory Framework; Bankers; Systemic Risk; Recession

As the long-time #1 best-seller, Garrison has helped guide close to 3 million students through managerial accounting since it was first published. It identifies the three functions managers must perform within their organisations-plan operations, control activities, and make decisions-and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Garrison's Managerial Accounting is known for its relevance, accuracy, and clarity. It is also unique in that the authors write the most important supplements that accompany the book: solutions manual, test bank, instructor's manual, and study guide - making them both of high quality and extremely consistent with the textbook.

In today's global society, it has become increasingly important to address the current challenges, obstacles, and solutions encountered by researchers in the field of information resources management. Global, Social, and Organizational Implications of Emerging Information Resources Management: Concepts and Applications highlights recent trends and advancements as they impact all facets of information resources management in an ever-changing society. This collection provides focused discussions of the role outsourcing has played in modern business, the development of Web information systems, and social issues such as explorations of age-based salary differences and workplace stress.
