Can a novel follow the form of a symphony and still succeed as a novel? Can musical counterpoint be mimicked by words on a page? Alan Shockley begins looking for answers by examining music's appeal for novelists and exploring two brief works, a prose fugue by Douglas Hofstadter, and a short story by Anthony Burgess modeled after a Mozart symphony. Analyses of three large, emblematic attempts at musical writing follow along with discussions on two recent brief novels. From the perspective of a composer, Shockley offers the reader fresh tools for approaching these dense and often daunting texts.

This work, following an older system of classification, consists of 7 volumes of Mandibulata (insects with chewing mouthparts/mandibles), 4 volumes of Haustellata

Written from the perspective of a scholar and performer, *Traditional Music and Irish Society* investigates the relation of traditional music to Irish modernity. The opening chapter integrates a thorough survey of the early sources of Irish music with recent work on Irish social history in the eighteenth century to explore the question of the antiquity of the tradition and the class locations of its origins.

Dowling argues in the second chapter that the formation of what is today called Irish traditional music occurred alongside the economic and political modernization of European society in the late eighteenth and early nineteenth centuries. Dowling goes on to illustrate the public discourse on music during the Irish revival in newspapers and journals from the 1880s to the First World War, also drawing on the works of Pierre Bourdieu and Jacques Lacan to place the

field of music within the public sphere of nationalist politics and cultural revival in these decades. The situation of music and song in the Irish literary revival is then reflected and interpreted in the life and work of James Joyce, and Dowling includes treatment of Joyce's short stories *A Mother and The Dead* and the 'Sirens' chapter of *Ulysses*. Dowling conducted field work with Northern Irish musicians during 2004 and 2005, and also reflects directly on his own experience performing and working with musicians and arts organizations in order to conclude with an assessment of the current state of traditional music and cultural negotiation in Northern Ireland in the second decade of the twenty-first century. The second of a three volume set, alphabetically arranged by composer, which catalogs the works of modern British composers.

Focus: Irish Traditional Music is an introduction to the instrumental and vocal traditions of the Republic of Ireland and Northern Ireland, as well as Irish music in the context of the Irish diaspora. Ireland's size relative to Britain or to the mainland of Europe is small, yet its impact on musical traditions beyond its shores has been significant, from the performance of jigs and reels in pub sessions as far-flung as Japan and Cape Town, to the worldwide phenomenon of Riverdance. Focus: Irish Traditional Music interweaves dance, film, language, history, and other interdisciplinary features of Ireland and its diaspora. The accompanying CD presents both traditional and contemporary sounds of Irish music at home and abroad.

The repertoire files of the late Dr. Barbara Doscher, in which she noted her tips, observations on each particular piece, and notes on how to best teach it, comprise a unique trove of wisdom unmatched by any other source. Laboriously transcribed and annotated by John Nix, one of Doscher's students, the notes are presented here as a companion volume to her best-selling text, *The Functional Unity of the Singing Voice*. Entries are divided by broad category (art song, arias, folk songs, oratorio, musicals,

etc.) and are arranged by song title. Each entry includes author, poet or librettist, key(s) available, ranges (for each key), tessitura, difficulty level, voice types, comments, a summary of the text, and notes as to genre, language, and editions available. Five comprehensive indexes facilitate searching. As a guide to selecting vocal repertoire, this book's practical and sometimes colorful comments on each song or aria will assist the vocal instructor in matching the student's ability and range to the appropriate piece. This distillation of Barbara Doscher's many years of experience in the teaching studio is a necessary addition to any vocal instructor's collection, as well as a valuable resource for the individual singer.

Tom Waits, even with his barnyard growl and urban hipster yawp, may just be what the Daily Telegraph calls him: &“the greatest entertainer on Planet Earth.&” Over a span of almost four decades, he has transformed his music and persona not to suit the times but his whims. But along with Bob Dylan, he stands as one of the last elder statesmen still capable of putting out music that matters. Journalists intent upon cracking the code are more likely to come out of a Waits interview with anecdotes about the weather, insects, or medieval medicine. He is, in essence, the teacher we wished we had, dispensing insights such as: &“Vocabulary is my main instrument;&” &“We all like music, but what we really want is for music to like us;&” &“Anything you absorb you will ultimately secrete;&” &“Growth is scary, because you're a seed and you're in the dark and you don't know which way is up, and down might take you down further into a

darker place . . .;&” and &“There is no such thing as nonfiction. . . . People who really know what happened aren't talking. And the people who don't have a clue, you can't shut them up.&” Tom Waits on Tom Waits is a selection of over fifty interviews from the more than five hundred available. Here Waits delivers prose as crafted, poetic, potent, and haunting as the lyrics of his best songs.
