to the possibilities of enriching the experience of the global business classroom for all parties. The contributors to the volume achieve this ambitious aim by delivering a highly accessible text, which offers a useful guide for teachers of global business classrooms. I certainly would like to have read this book in my early years of teaching as the volume provides a much needed injection of accessibility and evidence based recommendations and practical suggestions to a literature which has so far remained anaemic in these regards. Mustafa Özbilgin, University of East Anglia, UK
