"MsoNormal" Anthem Guide to Critical Thinking Skills: Language and Logic' guides readers in the process of critical thinking and persuasive speaking and writing. The text discusses informal thinking, the formal processes of induction, deduction, and syllogistic reasoning, in a clear format that makes it easy for the "beginning logician" to process. Students learn how to form a proposition, identify issues, gather evidence, and process an argument. To get started, logic games, puzzles, and real life examples ask students to consider how we evaluate, analyze, and decide. What happens if Janie says, 'Mom, can I go to the party? All of my friends are going!' And Mom responds, 'What if all of your friends jumped off the empire State building?' Is 'all of my friends are going' a good reason? Does mom have a point? Language and Logic will help students evaluate these everyday decisions. Then a more formal look at induction and deduction challenges students to practice higher-level thinking skills, such as using analogies for evaluation, and

WRITING: TEN CORE CONCEPTS is based on ten fundamental lessons—the Core Concepts—that student writers must learn to become sophisticated writers. The thorough integration of these Core Concepts distinguishes the book from all other writing guides. Most composition textbooks present far more material than students could ever grasp and retain in a single semester. That approach ultimately waters down the most essential lessons students need to learn for their different writing tasks. Emphasizing writing as an interaction between a writer and a reader, WRITING: TEN CORE CONCEPTS offers students guidance in three main aims of writing and a way to participate in the important conversations that shape our lives.
