

## New York State Correction Officer Practice Exam

This study examines the impact of interest groups and political pressures on correctional policy and decision-making in New York State under the administration of Nelson A. Rockefeller, Governor from 1958 to 1973. It describes the activities of the correctional bureaucracy, religious and social reformers, business and labor interests, and inmate organizations to assess their effectiveness in achieving their goals. From 1959 until the mid-1960's, correctional administrators had virtual autonomy, experiencing little interference from State government. The press and the public were almost completely excluded from contact with inmates. In the late 1960's, however, interest groups - civil liberties groups, law-and-order groups demanding stricter law enforcement, and others - entered the correctional arena, although the bureaucracy retained much of its previous power. During the 1970s, courts turned their attention to the prison system, there were a number of high-profile prison riots, and study commissions such as the Governor's Special Committee on Criminal Offenders introduced the views of groups with interests different from those of corrections officials. Prison inmates benefited from these efforts in that their conditions improved. However, their gains were merely symbolic or token, whereas those with established political power gained from tangible allocations of resources.

In the past few years, the need for prison reform in America has reached the level of a consensus. We agree that many prison terms are too long, especially for nonviolent drug offenders; that long-term isolation is a bad idea; and that basic psychiatric and medical care in prisons is woefully inadequate. Some people believe that contracting out prison services to for-profit companies is a recipe for mistreatment. Robert Ferguson argues that these reforms barely scratch the surface of what is wrong with American prisons: an atmosphere of malice and humiliation that subjects prisoners and guards alike to constant degradation. Bolstered by insights from hundreds of letters written by prisoners, Ferguson makes the case for an entirely new concept of prisons and their purpose: an "inner architectonics of reform" that will provide better education for all involved in prisons, more imaginative and careful use of technology, more sophisticated surveillance systems, and better accountability.

In America today, one in every hundred adults is behind bars. As our prison population has exploded, 'law and order' interest groups have also grown -- in

numbers and political clout. In *The Toughest Beat*, Joshua Page argues in crisp, vivid prose that the Golden State's prison boom fueled the rise of one of the most politically potent and feared interest groups in the nation: the California Correctional Peace Officers Association (CCPOA). As it made great strides for its members, the prison officers' union also fundamentally altered the composition and orientation of the penal field. *The Toughest Beat* is essential reading for anyone concerned with contemporary crime and punishment, interest group politics, and public sector labor unions.

On the 50th anniversary of America's deadliest prison riot comes a prison-guard daughter's quest to uncover the truth about her father's murder during the uprising--a story of crossing racial divides, befriending inmates and correctional officers alike, and challenging the state to reveal and pay for its malfeasance. On September 13, 1971, armed troops and corrections officers at the Attica Correctional Facility in upstate New York slaughtered 29 rioting prisoners and 10 hostages in a hail of gunfire. Negotiations for a peaceful resolution had stalled. The sticking point was the prisoners' final demand: amnesty for their murder of correctional officer William "Billy" Quinn, committed four days earlier during the takeover. Deanne Quinn Miller was 5 years old when her father was killed, the only Attica employee to die at the hands of inmates. For nearly 30 years, authorities attempting to protect law enforcement fed Deanne Quinn Miller lies about Attica, its aftermath, and her father's death. Here she tells of her relentless quest for truth and justice--for herself, her family, and an entire community. After the state settled a long-standing lawsuit with injured Attica inmates by awarding them \$12 million, Miller co-founded the Forgotten Victims of Attica and succeeded in getting the same compensation for the hostages and their families--who had received no support from the state. But the real win was the journey that crossed great divides: befriending infamous Attica prisoner Frank "Big Black" Smith, meeting Richard Clark and other inmates who tried to carry her father to safety after his beating, and learning what life was like for all of the people--prisoners and prison employees alike--inside Attica. As Miller lays bare the truth about her father's death, the world inside Attica, and the state's reckless raid and coverup, she conveys a narrative of compassionate humanity and a call for prison reform.
