Don't look for the answers on the bookshelf. There is scant literature devoted to the Provostship for which the author advances a number of hypotheses so, until this informal and autobiographical account, there has been little for aspirants or new appointees to draw on for guidance or to provide a feel for what the role entails. Larry Nielsen offers a highly personal account of his tenure as Provost of North Carolina State University, from his unexpected invitation by the Chancellor to act as interim Provost, to the events that forced his resignation four years

later, and brought him unwanted notoriety. In a fast-paced, self-deprecating style he invites the reader to share the activities that crowded his schedule, the symbolic character of the role, its opportunities to shape policy, and its limitations, as well as the joy and satisfaction he derived from making a difference in people's lives and the institution. We see him in action, and get a sense of the role, as he addresses problems large and small. He shares insights on the governance of a large public institution, on how monies are allocated, and funds made available for strategic initiatives. By the end of the book, we gain an understanding of the myriad roles of the "number two" position of the institution, responsible for the direction and functioning of all its academic and curricular affairs, that Larry Nielsen characterized for himself as "the University's stay-at-home Dad." He concludes the book with a look back at the Provost's job from his renewed perspective as a faculty member, further demonstrating the truth of his assertion that "where you stand depends on where you sit." This is an entertaining and insightful read for anyone who wants to get a glimpse of how a large university functions, as seen through the eyes of an ultimate "insider." For those interested in taking on the highest administrative positions in higher education it offers a window into that world, including the perils to which incumbents can be exposed when their actions become front-page

The goal of Introduction to Information Systems, 3rd Canadian Edition remains the same: to teach all business majors, especially undergraduate ones, how to use information technology to master their current or future jobs and to help ensure the success of their organization. To accomplish this goal, this text helps students to become informed users; that is, persons knowledgeable about information systems and information technology. The focus is not on merely learning the concepts of IT but rather on applying those concepts to facilitate business processes. The authors concentrate on placing information systems in the context of business, so that students will more readily grasp the concepts presented in the text. The theme of this book is What's In IT for Me? This question is asked by all students who take this course. The book will show you that IT is the backbone of any business, whether a student is majoring in Accounting, Finance, Marketing, Human Resources, or

The aim of the present document is to present the author's proposals on the reform of the governance model from a holistic and functional perspective. The first task when designing a system of governance should be to identify the function that it is to fulfil, which leads on to the question of exactly why universities are meant to be autonomous. For the good of society, universities as institutions have to guarantee that the knowledge they generate and transmit does not favour the interests of any particular group. They provide a public service that must act with autonomy. This autonomy must include all decisionmaking mechanisms, the whole system of governance, so that the public service of higher education and research can be rendered as efficiently as possible and without submitting to the influence of political, economic or religious interests. On the basis of the conclusions of the study University Autonomy in Europe II. The Scorecard and the current situation of the university, research and innovation system, this study proposes a well-defined set of governance elements that cover all the dimensions of university autonomy. The study makes explicit reference to the university system in Catalonia but its conclusions and argumentation are of more general applicability.

Why and how did Islam become such a political force in so many Muslim-majority countries? In this book, Jocelyne Cesari investigates the relationship between modernization, politics, and Islam in Muslim-majority countries such as Egypt, Iraq, Pakistan, Tunisia, and Turkey - countries that were founded by secular rulers and have since undergone secularized politics. Cesari argues that nation-building processes in these states have not created liberal democracies in the Western mold, but have instead spurred the politicization of Islam by turning it into a modern national ideology. Looking closely at examples of Islamic dominance in political modernization, this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states, and discusses Islam's impact on emerging democracies in the contemporary Middle East.

"Laura Briggs has given us a very smart book. She's opened

my eyes to Puerto Rican women's centrality to the entire American imperial enterprise. Pay attention to prostitution—debates about it, maneuvers to control it, reliance on it—and we'll gain a more realistic sense of political life. Briggs shows us how true that is. I'm going to recommend this book to everyone."—Cynthia Enloe, author of *Maneuvers: The International Politics of Militarizing Women's Lives* "A superb analysis of how U.S. colonialism in Puerto Rico had profound effects on sex, gender, and racial formations in both nations. Briggs sets new standards for the study of race and gender in U.S. women's history."—Peggy Pascoe, University of Oregon
