To protect the human race, 6T9 evolved with the flip of a switch and a few lines of code. But he's made himself a killer as well as a protector. The programming that may save humanity has driven him from Volka, the woman he loves. In the heart of the Dark's first strike against the Republic, 6T9 must discover what he has become, who he wants to be, and who he wants to be with. Slowly and almost unnoticed, Volka has been evolving, too. Heartbroken by 6T9's departure, she is torn between love and duty. Accepting the latter, she takes a mission that will lead her to the edge of the universe. There, she will be tested, and her evolution will pass a point where there will be no turning back. An android who has become more than a sex 'bot, a mutant who has developed startling abilities, 6T9 and Volka have become more than human. The changes they've endured may save the galaxy, but have driven them further apart. Will they find a way forward together, or will the bond between them be another casualty of the Dark?

At the edge of the galaxy, a research station has gone dark... Volka, 6T9, and Carl Sagan are called to help in the rescue mission ... A mission that triggers telepathic nightmares in their starship so terrifying battle hardened Galactic Marines break down and weep. They're about to discover some nightmares are real. The Darkness is Rising.

The Man Who Planted Trees is the inspiring story of David Milarch's quest to clone the biggest trees on the planet in order to save our forests and ecosystem—as well as a hopeful lesson about how each of us has the ability to make a difference. “When is the best time to plant a tree? Twenty years ago. The second best time? Today.”—Chinese proverb

Twenty years ago, David Milarch, a northern Michigan nurseryman with a penchant for hard living, had a vision: angels came to tell him that the earth was in trouble. Its trees were dying, and without them, human life was in jeopardy. The solution, they told him, was to clone the champion trees of the world—the largest, the hardiest, the ones that had survived millennia and were most resilient to climate change—and create a kind of Noah’s ark of tree genetics. Without knowing if the message had any basis in science, or why he’d been chosen for this task, Milarch began his mission of cloning the world’s great trees. Many scientists and tree experts told him it couldn’t be done, but, twenty years later, his team has successfully cloned some of the world’s oldest trees—among them giant redwoods and sequoias. They have also grown seedlings from the oldest tree in the world, the bristlecone pine Methuselah. When New York Times journalist Jim Robbins came upon Milarch’s story, he was fascinated but had his doubts. Yet over several years, listening to Milarch and talking to scientists, he came to realize that there is so much we do not yet know about trees: how they die, how they communicate, the myriad crucial ways they filter water and air and otherwise support life on Earth. It became clear that as the planet changes, trees and forest are essential to assuring its survival. Praise for *The Man Who Planted Trees* “This is a story of miracles and obsession and love and survival. Told with Jim Robbins’s signature clarity and eye for telling detail, *The Man Who Planted Trees* is also the most hopeful book I’ve read in years. I kept thinking of the end of Saint Francis’s wonderful prayer, ‘And may God bless you with enough foolishness to believe that you can make a difference in the world, so that you can do what others claim cannot be done.’ ”—Alexandra Fuller, author of *Don’t Let’s Go to the Dogs Tonight* “Absorbing, eloquent, and loving . . . While Robbins’s tone is urgent, it doesn’t

compromise his crystal-clear science. . . . Even the smallest details here are fascinating.”—Dominique Browning, *The New York Times Book Review* “The great poet W. S. Merwin once wrote, ‘On the last day of the world I would want to plant a tree.’ It’s good to see, in this lovely volume, that some folks are getting a head start!”—Bill McKibben, author of *Eaarth: Making a Life on a Tough New Planet* “Inspiring . . . Robbins lucidly summarizes the importance and value of trees to planet Earth and all humanity.”—*The Ecologist* “ ‘Imagine a world without trees,’ writes journalist Jim Robbins. It’s nearly impossible after reading *The Man Who Planted Trees*, in which Robbins weaves science and spirituality as he explores the bounty these plants offer the planet.”—Audubon

The Empire will kill him for stealing this ship... but they have to catch it first! To the Empire the Wanderer was just another booby-trapped ship to claim, and Jess was just another worthless slave who could be sacrificed in the process. Things didn't go to plan. Jess survived the dangers, and when he sat in the pilot's chair the ancient ship came to life for the first time in centuries. Acting on instinct Jess seized the chance, firing up the engines and fleeing the Imperial forces. Now Jess and the ancient self-aware ship are on the run, their freedom and their very existence on the line. The smart thing to do would be to run like hell and never stop, but Jess finds he can't ignore pleas for help from those in danger. With the powerful Wanderer at his command he can truly make a difference... but at what cost? Buy this collection of the first three books and see why tens of thousands of

In the fires of World War II, a child must save his people from darkness... Ten-year-old Uriel has always been an outcast. Born mute in a Jewish village known for its choir, he escapes into old stories of his people, stories of angels and monsters. But when the fires of the Holocaust consume his village, he learns that the stories he writes in his golden notebook are terrifyingly real. In the aftermath of the attack, Uriel is taken in by Uwe, a kind-hearted linguist forced to work for the commander of the local Nazi Police, the affably brutal Major Brandt. Uwe wants to keep Uriel safe, but Uriel can't stay hidden. The angels of his tales have come to him with a dire message: Michael, guardian angel of the Jewish people, is missing. Without their angel, the Jewish people are doomed, and Michael's angelic brethren cannot search for him in the lands corrupted by Nazi evil. With the lives of millions at stake, Uriel must find Michael and free him from the clutches of the Angel of Death...even if that means putting Uwe in mortal danger. The Book of Uriel is a heartbreaking blend of historical fiction and Jewish folklore that will enthrall fans of *The Book Thief* and *The World That We Knew*.

Both collectively and individually we have a deep and abiding fascination with angels. This book explores depictions of angels in the visual arts and in scripture and associated apocryphal and mystical writings,

specifically in the Hebrew and Christian Bibles and Islamic, Zoroastrian and other ancient and latter-day accounts. It examines the visual clues, artistic conventions and attributes that have been set down to help us to recognise angels in their particular roles and functions. Certain writings have had a particularly influential bearing on our understanding of angels. This text focuses on the hierarchies and orders proposed by the likes of Pseudo-Dionysius, St. Thomas Aquinas and others. In a new age of fascination with the metaphysical and supernatural (in film, television, popular mythology and literature), are we cementing or losing our connection with the authentic meaning and purpose that such vibrant and energised beings bring to our table? This book contains more than 30 illustrations in a central colour plates section. It also includes a useful glossary of terms and will prove a rich and enduring reference resource for libraries, as well as a stimulating go-to source for those interested in the world of angels and how human sensibilities and imaginative reasoning have enriched the subject, as a starting point for interreligious dialogue.

'Ulysses' is a novel by Irish writer James Joyce. It was first serialised in parts in the American journal 'The Little Review' from March 1918 to December 1920, and then published in its entirety by Sylvia Beach in February 1922, in Paris. 'Ulysses' has survived bowdlerization, legal action and bitter controversy. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. An undisputed modernist classic, its ceaseless verbal inventiveness and astonishingly wide-ranging allusions confirm its standing as an imperishable monument to the human condition. It takes readers into the inner realms of human consciousness using the interior monologue style that came to be called stream of consciousness. In addition to this psychological characteristic, it gives a realistic portrait of the life of

ordinary people living in Dublin, Ireland, on June 16, 1904. The novel was the subject of a famous obscenity trial in 1933, but was found by a U.S. district court in New York to be a work of art. The furor over the novel made Joyce a celebrity. In the long run, the work placed him at the forefront of the modern period of the early 1900s when literary works, primarily in the first two decades, explored interior lives and subjective reality in a new idiom, attempting to probe the human psyche in order to understand the human condition. This richly-allusive novel, revolutionary in its modernistic experimentalism, was hailed as a work of genius by W.B. Yeats, T.S. Eliot and Ernest Hemingway. Scandalously frank, wittily erudite, mercurially eloquent, resourcefully comic and generously humane, 'Ulysses' offers the reader a life-changing experience. Publisher : General Press

Gertrud the Great (1256-1302) entered the monastery of Helfta in eastern Germany as a child oblate. At the age of twenty-five she underwent a conversion that led to a series of visionary experiences. These centered on "the divine loving-kindness," which she perceived as expressed through and symbolized by Christ's divine Heart. Some of these experiences she recorded in Latin "with her own hand," in what became book 2 of The Herald of God's Loving-Kindness. Books 1, 3, 4, and 5 were written down by another nun, a close confidant of the saint, now often known as "Sister N." Book 5 details the sickness, deaths, and afterlife fates of various Helfta nuns, novices, and lay brothers, as witnessed by Gertrud in her visions. It also describes Gertrud's preparations for her own death and her predictive visions of her ultimate glorification in heaven. The Herald concludes with Sister N.'s personal account of her presentation of the whole book to the Lord at Mass, the welcome he gave it, and the privileges he attached to it. The Book of Special Grace, which mainly records the visions of Mechtild of Hackeborn, was probably compiled by Gertrud herself with the help of Sister N. Parts 6 and 7 recount the deaths of the abbess Gertrud and of Mechtild, her younger sister. As many passages overlap, sometimes verbatim, with corresponding chapters in book 5 of The Herald, a translation has been included for purposes of comparison.

ENOCH INSIGHTS gives great insight into the book of Enoch itself, which is an ancient book of around 5000 years old and apparently the very first book ever written. The book of Enoch was banned for 1000 years during the Dark Ages, on the threat of one being burned at the stake. Why was it banned? Enoch lived in a Prediluvian world where 'Fallen Angels' came down from heaven and were seduced by the most beautiful women who had ever lived. The fruit of this 'forbidden union' were the Giants

and Titans, who became cannibals and devoured mankind. Perhaps that is why we find many prediluvian cities underground? Were the prediluvian peoples hiding from man-eating giants and other monsters, such as dragons, dinosaurs and also chimeras of many types? How did the chimeras come into existence? During his lifespan which reached 365 years old, Enoch had many visions and dreams of heaven. He also visited hell and other dimensions. He prophesied about the entire '7000-year-History' of mankind from the beginning to the very end with stunning accuracy

Archangel Down Archangel Project. Book 1C. Gockel Alastair Reynolds revolutionized the science fiction genre with his critically-acclaimed Revelation Space novels. Now, the award-winning author presents a future of technological wonders—from every era... In a far-distant future, Spearpoint, the last human city, is a vast, atmosphere-piercing spire. Clinging to its skin are the zones: semiautonomous city-states, each of which enjoys a different—and rigidly enforced—level of technology. Following a botched infiltration mission, enforcement agent Quillon has been living incognito, working as a pathologist in a morgue. But when a near-dead angel drops onto his dissection table, his world is wrenched apart. For the angel is a winged posthuman from Spearpoint's Celestial Levels. And with the dying body comes bad news: Quillon must leave his home and travel into the cold and hostile lands beyond Spearpoint's base. But he can neither imagine how far the journey will take him—nor

The only thing he knows is that he has to find Commander Sato, a woman he's never met. A military officer from the colonies and a civilian from Old Earth, they couldn't have less in common. But they have to work together to save the lives of millions—and their own. Every step of the way they are haunted by the final words of a secret transmission: The archangel is down.

The islands of Caldera are a shining jewel in a rather bleak world. A terrible calamity in the past had blanketed much of the world with a toxic "fug." Those who survived were forced to take to the mountains and the skies in wondrous airships. Life has since been a struggle, with only the most ruthless and crafty able to survive. To spare themselves the same fate, the Calderans erected a battery of guns to fend off the airships of the mainland. They isolated themselves from the madness of the world, choosing instead to focus on the pursuits of art and creativity.
