This book provides students with a wide range of research and study skills necessary for achieving a successful classification on a psychology degree course. It replaces the stress and fear experienced when encountering essays, reports, statistics and exams with a sense of confidence, enthusiasm and even fun. Sieglinde McGee presents indispensable instruction, advice and tips on note making and note taking, evaluating academic literature, writing critical essays, preparing for and doing essay and MCQ exams, understanding research methods and issues associated with conducting research, writing and presenting reports and research and also some important computer skills.
