This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This student-friendly text illuminates organized crime from social, political, and economic perspectives, dispelling long-standing myths that prevent real understanding. Organized Crime, 6e, is designed to be an introductory text serving several purposes in the field of criminal justice. First, it gives the reader an understanding of the concept of organized crime—what it is and what it is not—and the necessary historical foundation for understanding the evolution, development, and current status of organized crime. Most important, the book is designed to dispel the myth that organized crime is composed exclusively of Italian American criminal groups. Another important component of the book is that drug trafficking plays an important role in the continuing proliferation of organized crime groups. The existence of the illegal drug trade says much about both the groups that traffic in illicit drugs and the members of society who use these drugs, consequently lending support to organized criminals. Finally, terrorism has dominated public policy since September 11, 2001. With increasing global awareness of terrorist organizations and those who belong to them, traditional models of terrorism have been challenged because the structure, financing, and recruiting mechanisms of such organizations are becoming more and more like their criminal counterparts in conventional organized crime. Logically organized and highly readable, the text promotes learning with extensive pedagogical features, from critical thinking projects to suggested readings. Teaching and Learning Experience This book offers a current look at organized crime, examining emerging areas in the field. It provides: Comprehensive, up-to-date coverage: Gives students the strong intellectual foundation they need to truly understand organized crime A thorough examination of the role of drug trafficking in organized crime: Students learn the important role drug trafficking plays in the continuing proliferation of organized crime groups Insights into terrorism as organized crime: Students are challenged to view traditional models of terrorism as a type of organized crime Extensive pedagogical features: Gives students the tools to master key concepts faster and more effectively and provides support for instructors Acclaimed as the standard reference work on the law relating to time charters, this new edition provides a comprehensive treatment of the subject, accessible and useful both to shipping lawyers and to shipowners, charterers, P&I Clubs and other insurers. It provides full coverage of both English and U.S. law, now updated with all the important decisions since the previous edition. The English decisions covered in the new edition include: The Kos (the Supreme Court on the effect of withdrawing a ship with cargo on board); The Athena (nature of off-hire; meaning of 'loss of time'/'time thereby lost'); The Kyla (damage to ship and frustration); The Silver Constellation, The Savina Caylyn and The Rowan (oil company approval of chartered ships); The Captain Stefanos, The Saldanha, The Triton Lark and The Paiwan Wisdom (effects of piracy); The Kildare and The Wren (damages for early termination); The T S Singapore (off-hire where ship going 'towards but not to' the port ordered), and The Lehmann Timber, The Bulk Chile and The Western Moscow (owners' liens) The new edition also features many significant new U.S. decisions, including: Stolt-Nielsen v. Animal Feeds Intl. (Supreme Court rules class-action arbitration not permitted unless parties agree in arbitration agreement); ATHOS I (Circuit Court finds that safe berth provision in charterparty is a warranty and not merely a due diligence obligation); The M/V SAMHO DREAM (arbitrators direct petitioner to post \$14.2M security on respondent's counterclaim) and Maroc Fruit Board v. M/V VINSON (CP arbitration clause incorporated in bill of lading not "signed" or "contained in an exchange of letters or telegrams" under NY Convention).

Good police officers are often promoted into supervisory positions with little or no training for what makes a good manager. Effective Police Supervision provides readers with an understanding of the group behaviors and organizational dynamics necessary to understand the fundamentals of police administration. The Effective Police Supervision Study Guide, which includes quizzes and other study tools, gives students, as well as professionals training for promotional exams, a way to review the material and be fully prepared for examinations and the world of police supervision. This new edition, like the new edition of the textbook it accompanies, includes information on the following topics: police accountability, police involvement with news media, dealing with social media, updates on legal considerations, and avoiding scandals.

A law textbook for high school students, designed to give them practical advice, knowledge, and skills to survive in our "law-saturated" society.

Critical thinking is the essential tool for ensuring that students fulfill their promise. But, in reality, critical thinking is still a luxury good, and students with the greatest potential are too often challenged the least. Thinking Like a Lawyer: Introduces a powerful but practical framework to close the critical thinking gap. Gives teachers the tools and knowledge to teach critical thinking

to all students. Helps students adopt the skills, habits, and mindsets of lawyers. Empowers students to tackle 21st-century problems. Teaches students how to compete in a rapidly changing global marketplace. Colin Seale, a teacher-turned-attorney-turned-education-innovator and founder of thinkLaw, uses his unique experience to introduce a wide variety of concrete instructional strategies and examples that teachers can use in all grade levels and subject areas. Individual chapters address underachievement, the value of nuance, evidence-based reasoning, social-emotional learning, equitable education, and leveraging families to close the critical thinking gap.

This text is written for K-12 educators and others who have little background in school law and need to know the sources of law under which educators operate. It focuses on an understanding of legal rationale and the principles that inform practice. Relevant case law, statutory law, constitutional provisions, and commentary are provided to develop a basic understanding of school law issues and the legal rationale underpinning such law. Broad legal concepts such as due process, equal protection, freedom of expression, the wall separating church and state, and reasonable search are stressed to help professional educators gain a better understanding of the legal landscape in which they operate. The case method of studying school law is emphasized. Selected cases present legal concepts in a real world context, assisting students in making the essential connection between more abstract general principles of law and their operational application in schools. This text is revised every three years to present the most current available information. But because the law changes rapidly, this text also provides students with essential skills and tools necessary for basic legal research, case citation, analyzing judicial decisions, and understanding the operations of state and federal systems of government. Lastly, but most importantly, the text is written in a clear, understandable, and interesting manner, to actively engage students in lively discussion, and debate concerning the application of the law in schools. The author provides notes and questions throughout the book to facilitate better understanding of the law and enable instructors to enrich learning through stimulating class discussions."

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds. James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: an up-to-date assessment of the potential and pitfalls of U.S. and world history education; information to help teachers expect, and get good performance from students of all racial, ethnic, and socioeconomic backgrounds; strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography; ideas from teachers across the country.

equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. The third edition of the best-selling text, Ethical Leadership and Decision Making in Education, continues to address the increasing interest in ethics and assists educational leaders with the complex dilemmas in today’s challenging and diverse society. Through discussion and analysis of real-life moral dilemmas that educational leaders face in their schools and communities, authors Shapiro and Stefkovich demonstrate the application of their four ethical paradigms—the ethics of justice, care, critique, and profession. After an illustration of how the Multiple Ethical Paradigm approach may be applied to real dilemmas, the authors present a series of cases written by students and academics in the field representing the dilemmas faced by practicing educational leaders in urban, suburban, and rural settings in an era full of complexities and contradictions. Following each case are questions that call for thoughtful, complex thinking and help readers come to grips with their own ethical codes and apply them to practical situations. New in the Third Edition: An entire new chapter on privacy versus safety, including ethical issues such as strip searches, gang membership, cyber-bullying, and sexting. New cases infused into chapters on early childhood education, diverse student populations, and technology. Updates throughout to reflect contemporary issues and recent scholarship in the field of ethical leadership. Including teaching notes for the instructor stressing the importance of self-reflection, this text is easily adaptable for a variety of uses with a wide range of audiences. Ethical Leadership and Decision Making in Education is a valuable book for both aspiring and practicing administrators, teacher leaders, and educational policy makers.

The Seventh Edition of this foundational text represents the most comprehensive source available for connecting multiple and diverse theories to literacy research, broadly defined, and features both cutting-edge and classic contributions from top scholars. Two decades into the 21st century, the Seventh Edition finds itself at a crossroads and differs from its predecessors in three major ways: the more encompassing term literacy replaces reading in the title to reflect sweeping changes in how readers and writers communicate in a digital era; the focus is on conceptual essays rather than a mix of essays and research reports in earlier volumes; and most notably, contemporary literacy models and processes enhance and extend earlier theories of reading and writing. Providing a tapestry of models and theories that have informed literacy research and instruction over the years, this volume’s strong historical grounding serves as a springboard from which new perspectives are presented. The chapters in this volume have been selected to inspire the interrogation of literacy theory and to foster its further evolution. This edition is a landmark volume in which dynamic, dialogic, and generative relations of power speak directly to the present generation of literacy theorists and researchers without losing the historical contexts that preceded them. Some additional archival essays from previous editions are available on the book’s eResource. New to the Seventh Edition: Features chapters on emerging and contemporary theories that connect directly to issues of power and contrasts new models against more established counterparts. New chapters reflect sweeping changes in how readers and writers communicate in a digital era. Slimmer volume is complemented by some chapters from previous editions available online.

Argues the position that more guns mean less crime, presenting an analysis of FBI crime statistics that disprove many commonly-held assumptions about gun control and its crime-fighting efficacy

The most widely-used text on the topic of collaboration, Interactions is a guide for preprofessionals and professionals to help them understand and participate effectively in their interactions with other school professionals and parents, in an increasingly diverse world that is also now routinely electronically and globally connected. Interactions presents theory and conceptual principles heavily seasoned with examples, cases, and applied activities. Written specifically to enable readers to quickly use their skills in professional settings, the book will be a useful tool for pre-service educators and practitioners-whether they are engaged in formal instructional settings, a study group, or independent study. The book recognizes that knowledge about instructional practices that can improve student outcomes are more important than ever before, and educators are scrambling to respond to the federal legislative mandates that require increasingly high standards and a clear trajectory of improving academic performance for all students, including those with disabilities and other special needs.

“In all of the literature addressing education, race, poverty, and criminal justice, there has been nothing quite like Reading with Patrick.”—The Atlantic A memoir of the life-changing friendship between an idealistic young teacher and her gifted student, jailed for murder in the Mississippi Delta FINALIST FOR THE DAYTON LITERARY PEACE PRIZE Recently graduated from Harvard University, Michelle Kuo arrived in the rural town of Helena, Arkansas, as a Teach for America volunteer, bursting with optimism and drive. But she soon encountered the jarring realities of life in one of the poorest counties in America, still disabled by the legacy of slavery and Jim Crow. In this stirring memoir, Kuo, the child of Taiwanese immigrants, shares the story of

her complicated but rewarding mentorship of one student, Patrick Browning, and his remarkable literary and personal awakening. Convinced she can make a difference in the lives of her teenaged students, Michelle Kuo puts her heart into her work, using quiet reading time and guided writing to foster a sense of self in students left behind by a broken school system. Though Michelle loses some students to truancy and even gun violence, she is inspired by some such as Patrick. Fifteen and in the eighth grade, Patrick begins to thrive under Michelle's exacting attention. However, after two years of teaching, Michelle feels pressure from her parents and the draw of opportunities outside the Delta and leaves Arkansas to attend law school. Then, on the eve of her law-school graduation, Michelle learns that Patrick has been jailed for murder. Feeling that she left the Delta prematurely and determined to fix her mistake, Michelle returns to Helena and resumes Patrick's education—even as he sits in a jail cell awaiting trial. Every day for the next seven months they pore over classic novels, poems, and works of history. Little by little, Patrick grows into a confident, expressive writer and a dedicated reader galvanized by the works of Frederick Douglass, James Baldwin, Walt Whitman, W. S. Merwin, and others. In her time reading with Patrick, Michelle is herself transformed, contending with the legacy of racism and the questions of what constitutes a "good" life and what the privileged owe to those with bleaker prospects. "A powerful meditation on how one person can affect the life of another . . . One of the great strengths of *Reading with Patrick* is its portrayal of the risk inherent to teaching."—The Seattle Times "[A] tender memoir."—O: The Oprah Magazine
