

The Complete Herbal Handbook For Farm And Stable

Excerpt from The Complete Herbal Take notice, That in this Edition I have made very many Additions to every sheet in the book: and, also, that those books of mine that are printed of that Letter the small Bibles are printed with, are very falsely printed: there being twenty or thirty gross mistakes in every sheet, many of them such as are exceedingly dangerous to such as shall venture to use them: And therefore I do warn the Public of them: I can do no more at present; only take notice of these Directions by which you shall be sure to know the true True one from the False. The first Direction. - The true one hath this Title over the head of every Book, The Complete Herbal and English Physician enlarged. The small Counterfeit ones have only this Title, The English Physician. The second Direction. - The true one hath these words, Government and Virtues, following the time of the Plants flowering, &c. The counterfeit small ones have these words, Virtues and Use, following the time of the Plants flowering. The third Direction. - The true one is of a larger Letter than the counterfeit ones, which are in Twelves, &c., of the Letter small Bibles used to be printed on. I shall now speak something of the book itself. All other Authors that have written of the nature of Herbs, give not a bit of reason why such an Herb was appropriated to such a part of the body, nor why it cured such a disease. Truly my own body being sickly, brought me easily into a capacity, to know that health was the greatest of all earthly blessings, and truly he was never sick that doth not believe it. Then I considered that all medicines were compounded of Herbs, Roots, Flowers, Seeds, &c., and this first set me to work in studying the nature of Simples, most of which I knew by sight before; and indeed all the Authors I could read gave me but little satisfaction in this particular, or none at all. I cannot build my faith upon Authors' words, nor believe a thing because they say it, and could wish every body were of my mind in this, - to labour to be able to give a reason for every thing they say or do. They say Reason makes a man differ from a Beast; if that be true, pray what are they that, instead of reason for their judgment, quote old Authors? Perhaps their authors knew a reason for what they wrote, perhaps they did not; what is that to us? Do we know it? Truly.
