

The Sling And Stone On War In 21st Century Thomas X Hammes

Originally published in German in 1923, this work records much of Vanuatu's early material culture. It is the result of two years of field work by Swiss anthropologist Felix Speiser between 1910 and 1912. Speiser attempted to collect everything that could still be obtained of the objects constituting Vanuatu's native culture. *Ethnology of Vanuatu* presents culturally and historically significant photographs and drawings by Speiser assembled during the expedition, along with color photos taken in the Basel Museum, which, taken together, represent the Speiser collection. Through the use of Speiser's collection of cultural photographs and illustrations, it has been possible to revive certain art forms thought to have already vanished.

Are you or a loved one facing a Goliath or Goliaths that are standing in your path and keeping you from experiencing life to the fullest and fulfilling the destiny God has called you to walk in? If this is you, or you know someone who needs to face and conquer their Goliath, look no further, *The Stone and the Sling* will show you clearly through God's all-powerful word how to conquer any giants in your path so that you-like David, who conquered Goliath-can step into the life and blessing God has prepared for you!

Recent history is replete with powerful military forces being tied up by seemingly weaker opponents. Recommendations for prescriptive answers are found in Thomas Hammes' insightful book on the strengths and weaknesses of conventional military power in which he describes fourth generation warfare, the means by which Davids can beat Goliaths.

The author describes how she forged positive

an important part of keeping this knowledge alive and relevant.

"Stone In A Sling" is the true, gripping story of a soldier named Scott Meehan and his experiences over a 25-year military career. Starting his career as a private and retiring as a major, Meehan is a professional who puts duty and honor above self-interest. Beginning in the city of Bogota with a terrorist bombing, the journey weaves through the path of intrigue during the Cold War in Berlin, and intensifies during Desert Storm, reaching its philosophical and theological conclusion in Iraq during Operation Iraqi Freedom. Scott sets you right into the action with a book that is hard to put down, vividly describing military life portraying the army wife and family, daily irritations of the desert, exploding bombs, and wintery cold of Berlin. His accounts of the miracles, his relationship with God, and relationships with multicultural people across the globe depict a study in character, values, integrity, faith and selflessness. This is an unforgettable account about a man who embodies the best in our nation--and the good in us all.

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. ++++ The Sword And The Shield: A Reply To 'The Sling And The Stone'. Theophilus (pseud), Sling and the stone
In exploring the pattern and methods of Aztec expansion, Ross Hassig focuses on political and economic factors. Because they lacked numerical superiority, faced logistical problems presented by the terrain, and competed with agriculture for manpower, the Aztecs relied as much on threats and the image of power as on military might to subdue enemies and hold them in their orbit. Hassig describes the role of war in the everyday life of the capital, Tenochtitlan: the place of the military in Aztec society; the education and training of young warriors; the organization of the army; the use of weapons and armor; and the nature of combat. When it comes to martial traditions, Dr. Robert Dohrenwend exemplifies a rare breed of scholar-warrior. You will find four chapters in this book devoted to weapons that have had enormous impact on world civilizations: the sling, sai, walking stick, and spear. With the spear and sling, we traverse millennia of human involvement with weapon innovation for hunting and warfare. These represent our primal roots. They are still with us today. The walking stick is normally seen as a practical device made to assist in walking and hiking. As a weapon, there's much more to a cane than meets the eye. For civilian self-defense, it is convenient and effective. Many are familiar with the Okinawan sai, but may be unaware that the weapon exists in other geographic areas as well. We have some solid references for the sai, including written and oral records, plus material artifacts. In each chapter Dr. Dohrenwend utilizes his academic research and practical experience to give the most complete overview of the weapons. This

includes not only their history, but other aspects such as their purpose, design, effectiveness, cost of production, and uses in military and civilian settings. There is much to absorb: scientific data and analyses, fighting techniques, stories, and some humor.
