Focusing on British and American novels, Rogers takes a sociological look at the business of literature, the book industry, and the experiences of novelists and readers. Viewing the novel as a vehicle of cultural meaning, the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations. She emphasizes the kinship between the social sciences and humanities in her analysis, by reinvigorating affection for the novel and also establishing its rich cultural significance.

Her seemingly empty life takes a sudden turn for the complicated--her first new friend is Jen's widowed mom, Pam. The only guy to give her butterflies in a very long time is Jen's brother. And meanwhile, Pam is being very deliberately seduced by Zoe's own smooth-as-tequila father. Pam's flustered, Jen's annoyed and Zoe is beginning to think "alone" doesn't sound so bad, after all."--Page [4] of cover.

For the better part of three decades romance comics were an American institution. Nearly 6000 titles were published between 1947 and 1977, and for a time one in five comics sold in the U.S. was a romance comic. This first full-length study examines the several types of romance comics, their creators and publishing history. The author explores significant periods in the development of the genre, including the origins of Archie Comics and other teen publications, the romance comic "boom and bust" of the 1950s, and their sudden disappearance when fantasy and superhero comics began to dominate in the late 1970s.

This study explored the embodied teen experience of parent-teen conflict and argument using a hermeneutic-phenomenological approach. Teens self-identified as (a) living in a family with everyday conflict, (b) not seeing a psychologist or counselor, (c) not having been in any drug or alcohol treatment programs, (d) not knowing the researcher ahead of time, and (e) being between the ages of 13 to 19 at the time the interview took place. The following themes emerged: (a) feeling powerless, small, devalued, and oppressed; (b) experiencing irritation, frustration, hypocrisy, pettiness, and defiance; (c) wanting freedom and autonomy and the battle for control; and (d) needing safe space and me time. Each theme and the whole embodied essence of this experience were interpreted through teens' as well as the researcher's lenses. The interpretations provide insight for teens, parents, and parent educators that may help improve parent-teen relationships and provide strategies to use in the classroom setting.
